INDEX TO VOLUME 15

SUBJECT INDEX

ACE, and personality inventory data, 160
Adjustment and values, index of, 257
Adlerian therapy, 32
Anxiety, problem of, in client-centered therapy, 359
Attitudes, toward self and others, 79

Behavior, psychologist's, as area of research, 278
Book reviews, 85, 167, 263, 354, 445, 512

Case reporting, psychological, at psychiatric staff conferences, 425
Cerebral palsied children, handedness in, 9
Children, normal, situational play therapy with, 225
Client-centered therapy, 72
  problem of anxiety in, 359
Client responses, and counseling method, 216
Clinical interns, procedures and methods in supervising, 267
Clinical psychologist, and mental defectives, 1
Clinical psychology, oscillation and progress in, 281
  trainees, supervision of in neuropsychiatric hospital, 271
  where are we going, 171
Color, effects of, on thematic fantasy, 412
Conferences, psychiatric staff, psychological case reporting at, 425
Counseling method, and client responses, 216
Counselor, general, eclecticism of, 76

Deterioration, in senile psychosis, 145
Drinkers, psychometric study of, 501
Drive theory, and TAT responses, 45

Einstellung-effect, as test of rigidity, 89
Einstellung test, of rigidity, relation to concreteness of thinking, 303
Electroconvulsive therapy, effect of, on psychological test performances, 430
Experimental stress, Rorschach factors related to, 190

Faking, experimentally induced in TAT, 469
Frustration, induced, 18
  induced in thematic apperception stories, 400

Group conformity rating, Rosenzweig Picture-Frustration Study, 250
Guidance center, community, supervision of interns in, 268

Handedness, in cerebral palsied children, 9
Harrower-Erickson multiple choice test, patients with spinal cord injuries, performance on, 346
Hewson ratios, 163
Humm-Wadsworth, and Minnesota Multiphasic, 457

Insight, two inventories of, 109
Intelligence, epileptic, 392
Intellectual classification, semantics of, 487
Intelligence level, Rorschach "organic signs" and, 343
Interns, in community guidance center, supervision of, 268
Interview devices, projective pictures as, 405
I.P.A.T. Culture-Free Intelligence Scale 2
  IQ standardization of, 154
IQ, variability, in relation to age, 231
  on revised Stanford-Binet, 231

Language, schizophrenic, regression of, 387

Masculinity-femininity measures, comparison of, 484
Mental defectives, and clinical psychologist, 1
Mental hospital, patients, symptoms patterns in group of, 290
Military personnel, nervous symptoms among, 320
Minnesota Multiphasic Personality Inventory, and Humm-Wadsworth, 457
  factor analysis of fifteen scales of, 451
  internal structure of, 134
  item analysis aid for, 262
  norms, reliability and forms, 435
  profile coding, 82
  profiles in multiple sclerosis, 253
  profiles in patients with low-back pain, 350
  role-playing ability test derived from, 102
  Sc scale, 142
Multiple sclerosis, MMPI profiles in, 253

Nervous symptoms, among military personnel, relation to age, combat experience, and marital status, 320
Neuropsychiatric hospital, clinical psychology trainees in, supervision of, 271
Nondirective therapy, 32
Normals, young, and schizophrenics, young, performance on Wisconsin Card Sorting Test, 311

Personality, self-evaluative questionnaires as projective measures of, 496
Projective measures of personality, self-evaluative questionnaires, 496
Projective pictures, as interview devices, 405
Projective technique, Michigan Picture Test, 51
  see also Rorschach Szondi; TAT
Psychiatric symptoms, practical correlates of, 505
Psychiatric syndromes, generality of, 372
Psychoanalysis, transference in, 72
Psychoanalytic therapy, 32
Psychotherapy, accuracy of self-evaluations in, 95
  group, evaluation of by means of performance tests, 363
  hearing versus reading interviews, 115
  and insight, 109
  and role-playing ability, 102
  training in, 274

Psychotics, organic, symbol arrangement test, 439
Punishment-reward expectancy in thematic apperception stories, 400

Research, psychologist's behavior as an area of, 278
Research scientists, psychological tests of, 492
Rigidity, Einstellung-effect as test of, 89
Einstellung test of, relation to concreteness of thinking, 303
Role-playing ability, test of, 102
Rorschach and Behn-Rorschach, inkblot tests, comparison of, 185
cards, color as a determinant of responsiveness to, in schizophrenia, 196
color and 8-9-10 per cent, 122
descriptive diagnosis, 460
factors related to experimental stress, 190
forerunner of, 120
impulsivity as indicated by, 464
organic signs and intelligence level, 343
norms, a contribution to, 178
norms for "shock," 127
predicting continuation in therapy, 368
test results, influence of set for area on, 337
Rosenzweig Picture-Frustration study, conformity rating of, internal consistency of, 250

Schizophrenic language, regression of, 387
Schizophrenics, young, and normals, young, performance on Wisconsin Card Sorting Test, 311
Scientists, research, psychological tests of, 492
Self-evaluations, accuracy of, 95
Self-evaluation questionnaires as projective measures of personality, 496
Senile psychoses, relation of writing speed to, 243
Situational play therapy, with normal children, 225
Stanford-Binet, and Wechsler Intelligence Scale for Children, 236, 330
and Wechsler Intelligence Scale for Children, pupil functioning on, 475
IQ variability on, 231
Symbol arrangement, original test of, validated on organic psychotics, 439
Symptom patterns, in group of mental hospital patients, 290
Syphilitics, congenital, performance of, on Wechsler Intelligence Scale for Children, 239
Szondi test, instability score, development of, 334
four experiments with, 39
note on Fosberg's four experiments with, 511
pictures, factors affecting the choice of, 210
pictures, stimulus values of, 419
valence distribution, 130

Test, ACE, 160
Einstellung-effect and rigidity, 89
Einstellung, of rigidity, relation to concreteness of thinking, 303
Harrower-Erickson multiple choice, performance of patients with spinal cord injuries, 346
Humm-Wadsworth, 457
I.P.A.T. Culture-Free Intelligence Scale, 2, 154
Michigan Picture, 51
MMPI, 82, 102, 134, 142, 350, 435, 457
performance and evaluation of group psychotherapy, 363
performance, psychological, effect of brief stimulus electroconvulsive therapy on, 430
Rorschach, 120, 122, 127, 178, 185, 190, 196, 337, 343, 368, 460, 464
Szondi, 39, 130, 210, 334, 419, 505
Stanford-Binet, 231, 236, 330, 469
symbol arrangement, 439
Thematic Apperception, 45, 55, 203, 469
Wechsler-Bellevue 68, 151, 163, 325
Wechsler Intelligence Scale for Children, 62, 236, 239, 330, 381, 385, 475
Wisconsin Card Sorting, 311
Thematic Apperception Test, and drive theory, 45
card, ambiguity values of, 203
experimentally induced faking of responses, 469
two methods of administration, 55
Thematic fantasy, some effects of color on, 412
Thematic apperception stories, induced frustration and punishment-reward expectancy in, 400
Therapist, reaction of patient to, used as training and research device, 24
Therapy, Adlerian
brief stimulus electroconvulsive, effect of on psychological test perfomance, 430
client-centered, 72
client-centered, problem of anxiety in, 359
nondirective, 32
prediction continuation in, by Rorschach test, 368
psychoanalytic, 32, 72
reaction of patient to therapist in, 24
situational play, with normal children, 225
Transference, in client-centered and psychoanalytic therapy, 72

Voice, and clinical judgments, 115

Wechsler-Bellevue, and descriptive diagnosis, 325
neurotics and schizophrenics, 151
schizophrenia, 68
validity of Hewson ratios, 163
Wechsler Intelligence Scale for Children and Stanford-Binet, 236, 330, 475
equivalent test and mental ages for, 381
evidence on validity of, 385
performance of congenital syphilitics on, 239
Verbal and Performance IQ's, 62
Wisconsin Card Sorting Test, 311
Writing Speed, relation to age and senile psychoses, 243

AUTHOR INDEX

The names of original articles are printed in CAPITALS; and of authors of books and tests reviewed in Roman.

ABORN, M., 231
ABRAMSON, L. S., 337
Abt, L. E., 85
ALESSI, S. L., 425
ALLEN, R. M., 262
Allport, G. W., 167, 515
ANDERSON, G. L., 267
ANDREW, G., 51
Ann Arbor Conference on Training of Psychological Counselors, 357
